

TESTIMONIALS & LOVELY WORDS

- **Maya Reid 8/28/2020**

"Awesome staff, curriculum, and experience for the kids. We have had our kids attend since they were as young as 6 weeks old, and all 3 of our kids are as happy as can be when they are there."

- **Jessica Ryan 8/20/2020**

"Our daughter attended CGLC from the age of 3 until starting Kindergarten and our son attended from 6 weeks of age until 6 years old. From the infant room to the Pre-k program, our children received more love, care, connection, learning and opportunities than could ever be measured. The adults that cared for our kids truly loved our kids. CGLC was a place that our kids wanted to go to each day, they were happy and well cared for, they made lasting friendships and have connections with the staff that will be lifelong. We will miss CGLC being part of our daily lives, but the love and appreciation we have for the teachers and staff will stay with us always!"

"I know alot of people are hesitant to bring their child to a daycare which is totally understandable due to all the horror stories going around. Not only am I an employee here, I also bring my son 3 days a week. I absolutely could not ask for better staff to care for him. they're patient, compassionate, kind, caring, and all around the sweetest ladies I've ever had the honor of working with. When I drop my son offl never have a second thought of how hes being cared for because I know its top notch care hes receiving! I rate them 10 out of 5 stars!"
